In the specification

Please replace the paragraph on page 9, paragraph 34, with the following paragraph:

The memory ~~308~~ 304 includes a code section 308, data 310, a spin lock function 312, and a spin unlock function 314. The code section 308 is a section of code that is preferably executed on an all-or-nothing basis. That is, either the entirety of the code section 308 is executed and committed to memory, or none of the code section 308 is executed and committed to memory. The data 310 is the part of the memory 304 to which the code section 308 relates. That is, the data 310 is the data that is processed by the code section 308.
